

U16A – Jerry Brun

I have been coaching youth sports since 1991 in the Windsor Essex County Region. It has always been my philosophy to instill values and ethics into the youth of our community through sport. To have them share the same passion, fortitude and desire for sport that I have and the benefits of being an intricate part of a team for life. I believe in the importance of continuous learning and personal development in the sport of hockey and building upon the foundation of knowledge.

My goal is to make travel hockey a positive one for players and parents by providing a safe and fun environment that promotes confidence, and we will work to get the athletes to the next level through mutual understanding. Competition, development, and winning creates a love for the game. Trying our best to win, within the context of a team full of friends and trust, shall be the focus. I shall endeavor to be a powerful role model and have a tremendous influence on these athletes while promoting the values of Windsor Minor Hockey Association. Open borders provides a choice and opportunity to be a part of this organization. By committing to the Windsor Junior Spitfires U16A Squad, you will be treated with respect and will receive training at a world class high-performance training facility, video review, off-ice training, qualified coaching staff, stay connected to Windsor AAA affiliate and Bio Steel Academy with immediate access to coaches and staff, a comprehensive development program and a whole lot more, right here at Central Park Athletics!

****** AIM HIGH - FLY – BATTLE - WIN ******
