

Kirby McArdle – U15 A Head Coach

Our Staff consists of:

Kirby McArdle
Darren Morrison
Mike Hawley
Collin Patterson

We have coached in the Windsor Minor Hockey system for over thirteen years. Over that period of time, we have been Coaches in House League to begin and moving on to Head Coach and Assistant Coach for the last eight years in Pee Wee AE, AA, Bantam AE and most recently with the Midget Major AA Travel Club.

We all grew up playing competitive minor hockey in our home towns. Between our group we have had relative success through our minor hockey careers. Collin is a product of WMHA having played competitive all the way through to Midget.

Our approach centers around the fact that even at the competitive level, hockey is still a game being played by kids and meant to be fun and should be kept in perspective by everyone involved.

From a hockey standpoint, skill development, tactics, and team play will be a primary focus, while encouraging the development of other life skills such as responsibility, accountability, and respect. The expectation will be for players to be focused and give their full efforts at each team event throughout the season. In return, we intend to build players confidence in their skills and abilities through positive feedback, constructive correction, and patience with their development throughout the entire year.

Our belief is that competition is an important part of life. We want to teach the players the value of competing and working hard. We want players to feel good about their effort level and their team's effort level, regardless of the outcome.

Coach Kirby
